## OUR PROGRAMMES

Glasgow College, UESTC and Glasgow College Hainan, UESTC provide students with a fantastic opportunity to be taught by two world-class Universities and graduate with dual degrees. Our students have a number of options of study available to them, allowing you to tailor your undergraduate environment depending on what academic and social experiences you are seeking.

You will be taught by experts in their field from the University of Glasgow (UofG) and the University of Electronic Science and Technology of China (UESTC) without leaving China, completing all four years of study at your home location. Alternatively, you can travel overseas

Studying in Glasgow provides the opportunity to pursue your Final Year Project (FYP) supervised by world-renowned engineers, while gaining international experience within a dynamic community bursting with ideas, creativity and potential. Previous 2+2 and 3+1 students have gone on to work in industry and to complete Masters degrees and PhD degrees at prestigious universities in China and overseas.
